Last week this counter shown some up move and come up till 38000. Still we don't have any confirm sell signal or buy signal. But due to we are bearish in gold it may also show some weakness so this week watch our trend decider level of 38360, if it break and sustain below this level you can go with short and above 38560 you can go with buy. You can play both side.
